Albert Lee

(347) 559-1233 | aclee94@gmail.com | LinkedIn | Github | Portfolio | AngelList | New York, NY

Skills JavaScript, React, Redux, Ruby, Ruby on Rails, WebSockets, HTML5, CSS3, Github, PostgreSQL, SQL, AWS S3, Node.js, MongoDB, Express, Linux/Unix, Docker, Heroku, RSpec, Capybara, Jasmine, Darksky API, Google Maps API, AJAX, SCSS, jQuery

Projects

Diskord (JavaScript, React, Redux, Ruby, Ruby on Rails, HTML, CSS, PostgreSQL, AWS, WebSocket) Chat app similar to Discord which is a communication platform targeted towards gamers

Live Site | Github

- Implemented chat with WebSocket protocol using Rails Action Cable to enable users to communicate in real-time
- Enabled users to attach media files with Rails Active Storage in conjunction with a production AWS S3 bucket to host files

Space Blasters (JavaScript, HTML, CSS, Canvas API)

Live Site | Github

Star Wars-inspired space shooter game

- Used singleton design pattern to instantiate projectile audio files which led to smooth animations and constant space complexity.
- Achieved particle background effect with 8 canvas layers at different velocities to mimic space environment

Morning Dash (MongoDB, Express, React, Redux, Node.js, SCSS, Darksky API, Google Maps API)

<u>Live Site</u> | <u>Github</u>

Commuter dashboard to see commute, weather, calendar details in a single-page app

- Led frontend design to create a mobile-first app that displays 3 API driven components based on user information
- Collaborated with the team to construct responses from Google Maps/Darksky APIs to make components dynamic
- Deployed with git workflow and merge blocking to make code more organized which resulted in faster debugging

Synchrony (HTML/CSS/Shivtr)

Live Site

Communication platform for former competitive gaming group

Self-taught Shivtr framework in a few days to create a content management system for ~30 active players

Experience

T-Mobile

Mobile Expert (Frontline Sales)

June 2016 - October 2019

- Provided top tier customer service and grew a book of business with over 1,000 names in personal CRM flow
- Mentored 4 new employees and helped them get up to speed within 3 months to average 100%+ of sales metrics
- Drove sales and exceeded metrics, averaging 120% of sales metrics yearly

Stevens Institute of Technology

Student Lounge Manager

Jan 2014- May 2016

- Managed ~25 employees and digitized paper scheduling system utilizing Google Sheets and Google Forms
- Overhauled snack inventory system resulting in profitable operations of ~\$200 per month from being unprofitable.
- Implemented open communication protocol via email to allow schedule swaps and dynamic employee interaction

Education

App Academy

November 2019 - March 2020

1000+ hours of coding experience from intense coding bootcamp with less than 3% acceptance rate

Stevens Institute of Technology

Bachelor of Science in Business / Technology with concentrations in Information Systems / Marketing Aug 2012 - May 2016 Relevant courses: Introduction to Programming (C++), Intro to Scientific Computing (Matlab), Engineering Design (C++), Programming for Mobile Applications (MIT App Inventor), Relational Databases for IT (SQL), Systems Analysis and Design (Agile)
